

# Declaration 4 Liberty

To All who identify as God Fearing Patriots in the United States,

In light of the COVID power grab and mandates, General Milley's treason, Congress certifying a fraudulent election, SCOTUS declining to exercise their Article 3 original jurisdiction and hear a legitimate dispute between states regarding the 2020 election integrity, the promise of court packing, the Biden connection to the CCP, Pelosi's expanding the Capitol Police presence across the Union creating a modern day Praetorian Guard, the obvious sham of January 6 with hundreds of American citizens being intentionally deprived of their due process, the imminent monitoring of EVERY banking transaction in excess of \$600, the FBI being militarized against parents who object to masks or CRT at School Board Meetings, vaccine mandates, suppression of free speech rights and a President "losing his patience" with people exercising their unalienable rights, etc., etc., ***What evidence exists that would demonstrate we are still operating under a functioning Constitution that restricts or restrains the federal government?***

It is time we quit fooling ourselves. We have witnessed a perfectly executed coup in America. It is over! **But Liberty can be saved - for some.** Our survival or demise will come from whether we recognize exactly where we are as a people.

The World Economic Forum plans for the Great Reset are well known. The events of the past 24 months have been orchestrated and intentional and are global in scope. President Trump spoke to the General Assembly of the United Nations on September 24, 2019, and to the World Economic Forum in Davos on January 21, 2020. On both occasions he rejected America's participation in the Great Reset. Satan's minion, George Soros, stated confidently to the WEF, that the Trump administration was "a purely temporary phenomenon that will disappear in 2020."

Considering the state of the American economy at that moment and Trump's popularity, how could the evil Soros have been so confident?

For Klaus Schwab, George Soros and the World Economic Forum to successfully implement their Great Reset, the MAGA Doctrine had to go. America had to be brought back in line to establish their oligarchy of global socialism.

**One thing the Trump administration proved is that DC, including SCOTUS, is owned by the Deep State. If we can save liberty, it will not come from DC. It will come DESPITE DC.**

We are no longer a representative republic. We are an administrative state run by bureaucratic agencies like the FBI, CDC, CIA, EPA, DHS, FDA, DEA and the IRS all of whom are controlled by the CFR.

We deceive ourselves presuming we will “take back Congress” in 2022. IF we were to make it to 2022 (remembering the Great Reset), why do we assume a fair election in 2022 considering the 2020 Presidential election, the Georgia Senate Runoff and the California recall election? Even with the victory in Virginia, those controlling DC have doubled down on their Covid tyranny rather than moderating. They aren’t concerned about 2022! They are going for the knockout blow NOW! **This whole effort is global in scope - MAGA cannot be because of the Great Reset.**

As we all wish to look to the Constitution to save the Union, consider these points:

- One famous, renowned attorney admitted in my presence on 9/24/21 that “most judges don't care what the Constitution says.” Yet, we pin our hopes on the Constitution saving us in Federal Courts.
- I possess an email from United States Senator James Lankford stating as a matter of fact of the 2020 Presidential Election, “*There absolutely was fraud...*”. If members of the US Senate KNOW there was fraud, then how could they certify the 2020 Presidential Election? The Constitution failed in securing a legitimate election.
- In Article 3 of the US Constitution, the Supreme Court was given original jurisdiction in disputes between states, yet THEY IGNORED THE CONSTITUTION and refused to hear the Texas lawsuit over election fraud.
- Commanding General Milley clearly violated his oath to secure and defend the US Constitution committing treason, with no consequences.
- While actual terrorists burned cities across America with no consequence, American citizens lured into the Capital on January 6 have been deprived of their “Constitutionally guaranteed” rights rotting in jail.
- We have witnessed our unalienable rights of life, liberty and pursuit of happiness be deprived with illegal covid mandates and a President who is losing patience with his subjects for not receiving an experimental genetic experiment.
- We are seeing the Speaker establish a modern-day Praetorian guard across America opening Offices of the Capitol Police across these United States for some imagined homegrown terrorists while our southern border is being invaded and a true terrorist regime had been established by this government in Afghanistan.

Perhaps the Constitution didn’t bind down enough the mischief of men as Jefferson hoped. Perhaps it is John Adams warning that our Constitution was made only for a moral and religious people. **Either way, whatever our Constitution once was or was supposed to be, it isn’t any more. That is an irrefutable fact.**

In 1774, loyal British citizens did everything within the “legal” process to resist tyranny. Finally in 1776, they took stands as sovereign states to stop tyranny.

It's time we face reality. None of us want to be here, but God has placed us here for such a time as this.

**States created a limited Federal government. The Constitution is the “operating agreement” for that limited partnership.** Those who are elected to Federal Office swear an oath to be bound by, protect, and defend the Constitution from enemies foreign and domestic. It is an operating agreement. **The Constitution is neither holy writ, nor is it a suicide pact!**

Preceding and superior to our “operating agreement” is our mission statement, our statement of faith, our birth certificate, and our reason for being - the Declaration of Independence.

This DECLARED the sole purpose of government was to secure unalienable rights given by God. *“Whenever ANY form of government (including the current administrative bureaucratic one in DC) becomes destructive of these Ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its Foundation on such Principles, and organizing its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness.”*

The mantle of freedom and liberty has once again fallen to the people of the states, that's you and that's me. Just as 13 sovereigns acted to secure and defend their God given rights in 1776, our sovereigns must again do the same.

Our philosophical/political differences are so great, they have become *irreconcilable*. Therefore, it is time for a political divorce – not a war of hostilities, but a well-reasoned, peaceful separation. This is the essence of what the Colonists were doing in 1776 and their “document of separation” was the *Declaration of Independence*. Recognizing that differences between peoples (the American colonies and Great Britain) can become irreconcilable, they made the following declaration:

*“When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.”*

**It appears that as many as 28 states are like-minded enough that they could compact together and refuse to be part of the Great Reset and Global Socialism.** These states have a combined population of approximately 140 million citizens, possess the necessary industrial and energy infrastructure to create a thriving economy producing a combined GDP of some \$8 trillion. They own 42 deep water ports, with 3 naval fleets and numerous military installations operating within their borders – all sufficient resources for mutual protection and defense.

Imagine a federation of 28 states that revere and would honor the principles articulated in the *Declaration of Independence* and would not allow atrocities like abortion, would not allow the governmental/bureaucratic overreach that dictates everything from what lightbulbs we can use, how many gallons we can flush in our toilets, to more recently, what businesses are *essential* and whether our children must wear masks all day at school!

Imagine a TRUE free market with a gold backed currency combined with blockchain technology owned by the people and not central bankers! All debts, including social security, would be assumed in pro-rata share by each state, except those debts to the private bank of global oligarchs – the Federal Reserve. They can go pound sand. The economy WOULD reset. To be sure, there would be challenges, but markets would quickly skyrocket with true economic freedom and a true free market.

Recognize that by doing nothing, we are destined for hyperinflation, food shortages, and the World Economic Forum's PROMISE that by 2030 private citizens would own NOTHING! **Pain is unavoidable!** There will be no "*return to normal*" only the globalists' "*new normal*." Their plan to "*build back better*" includes masks for children, non-stop boosters, no meat in your diet, rolling blackouts, confiscation of private firearms, no private property ownership – in short, no life, liberty, or pursuit of happiness, just life according to their dictates.

The issues we face are nothing new to the human experience. Our Pilgrim Fathers and Mothers faced extremely difficult decisions as they broke from (divorced, separated from) the Church of England, but they persevered and did what was right. Today, we honor them as heroes. In similar fashion, in 1776, fifty-six men representing 13 sovereigns faced extremely difficult

decisions as they broke free (divorced the Monarchy of England), but now we honor them as heroes.

It boils down to this: If you truly believe this is just another election cycle and that those running our Federal government, including the Biden administration, simply have an honest difference of opinion with those of us who believe in individual life, liberty, and pursuit of happiness and actually want what is best for America, then ignore this letter and go back to your voter registration drives in the attempt to take back Washington and if you succeed, perhaps you'll convince our *rulers* in the Supreme Court to reverse Roe after another 60 million babies have been murdered. Maybe even George Soros and Klaus Schwab really want what's best for America and will see the light once we "take back Washington".

Remember Benjamin Franklin's immortal words when asked what kind of government America had? He responded, "*A Republic IF YOU CAN KEEP IT.*" With great sadness, we must admit that the Republic they gave us is dead.

The United States as we know it today **IS** the Titanic. We have hit the iceberg. We **ARE** going down. The Great Reset won. However, a Phoenix can rise from the ashes.

The question is will we do the comfortable thing, deny the obvious facts, and go back to our staterooms because the deck is too cold, or will we get on the lifeboats of Free Sovereign States (like Florida, Texas, Oklahoma, and others) and secure liberty for another generation in those states who want it?

For Such a Time as This!
